

Results from Bunnings BBQ 15th June 2010 - email

Hi all,

Firstly a big thank you for all showing up for your designated rosters*, doing cooking, serving, tendering moneys etc, and in most cases staying well beyond the nominated times. Thanks particularly for the assistance at the early start for the day in preparation of the site and for the assistance at the end of the day on getting back to the shed & pack-up (won't mention names – you know who you are). * *Thanks for contacting me earlier Laurie – I hope that the thumb is on the mend and is feeling more comfortable now.*

Everyone did a great job, and aside from the monetary gain for our extension, it was interesting to see how much interest was shown in the “Shed” concept by many people, and there is a good chance we may see some extra members along as a result. I think it proved to be a really good marketing exercise as well.

The final Net Profit following expenses was \$747.00, which given that it was a Friday and customers came in “patches” wasn't too bad really. By 10.30am in the morning I would have thought we might have been lucky to get approx half of that, being pretty slow, but thankfully things got moving towards lunchtime when we had to re-stock.

Anyway, I have attached a break-down of the numbers in the attached file. We went pretty close to using all we ordered (small remainder can be re-used for subsequent events), and thankfully the “incremental” system of purchasing worked out reasonably well, and I hope others agree.

Hope all find this result a satisfactory one and thank you all again on behalf of the Committee & Shed (and personally in helping me), and well done all.

Cheers..have a good weekend gents.

Regards,

Geoff
