<p>Notes: 1. There was confusion about cleaning, but the notes sent out and on the BBQ clearly state you must clean the BBQ with hot soapy water obtainable from Bunnings café.</p> <p>2. Need large gas lighter to light the front burner of the BBQ; or start the rear burner first.</p> <p>3. Need easy to use garbage bags, and liner bags for the small buckets. Also take our own clean bucket to collect cleaning water.</p>
